TCORS

Center for the Assessment of Tobacco Regulations [CAsToR]

CAsToR investigator Dr. Sanchez Romero will present a population simulation model for tobacco control, using an example of her work on developing a COPD Natural History Model.

This webinar will build on a 2023 webinar where Dr. Sanchez Romero provided an overview of the model development. That recording is available here.

There will be sufficient time for Q&A.

Thursday, October 9th, 1-2pm ET
Registration required

Questions? Contact Molly Coeling (mcoeling@umich.edu).

CAsToR Webinar

A COPD Natural History Simulation Model for Tobacco Regulation Evaluation:

Policy Implications

Dr. Luz Sanchez Romero
Assistant Professor, Georgetown University
